Technical Findings & Evidence Registry

MEDIUM

OBSERVED

TECHNICAL

E-002, E-003, E-004, E-005, E-006

Uncaught JavaScript Console Errors (2 detected)

Observation: Detected 2 runtime JavaScript errors across 2 pages.

Evidence: Sample errors: - Failed to load resource: the server responded with a status of 403 () - Failed to load resource: the server responded with a status of 403 ()

Impact: JavaScript errors can break interactive UI elements, sliders, forms, tracking scripts, and lead to poor user experience.

Recommendation: Inspect browser developer console logs, fix unhandled exceptions, and ensure third-party scripts load safely.

MEDIUM

OBSERVED

SECURITY

E-011

Missing Defensive HTTP Security Headers (4 missing)

Observation: The web server response does not include standard defensive headers: Strict-Transport-Security (HSTS), Content-Security-Policy (CSP), X-Frame-Options, X-Content-Type-Options.

Evidence: Response headers from https://mfg.com/ were inspected. Found: {"hsts":null,"csp":null,"xFrameOptions":null,"xContentTypeOptions":null,"referrerPolicy":"no-referrer-when-downgrade","permissionsPolicy":null}

Impact: Leaves the website vulnerable to clickjacking (missing X-Frame-Options), MIME-type sniffing, and cross-site scripting risks.

Recommendation: Configure your web server (Nginx/Apache/Cloudflare) to send HSTS, X-Frame-Options: SAMEORIGIN, and X-Content-Type-Options: nosniff headers.

MEDIUM

OBSERVED

SEO

E-012

Images Missing Alt Text (4/20 images)

Observation: 4 images on the website lack descriptive alt attributes.

Evidence: Found across crawled pages. Sample missing alt images detected in DOM.

Impact: Prevents image search indexing in Google Images and makes visual content inaccessible to visually impaired users using screen readers.

Recommendation: Add concise, descriptive alt text to all meaningful images. Use empty alt="" for purely decorative background elements.

MEDIUM

OBSERVED

ACCESSIBILITY

E-013

Images Missing Accessible Alt Text (4 detected)

Observation: 4 image elements do not provide textual alternatives via alt attributes.

Evidence: Found across 2 crawled pages.

Impact: Assistive technology users (such as screen readers) cannot perceive the meaning or context of graphical content.

Recommendation: Add meaningful alt attributes describing the content or function of each image.

HIGH

OBSERVED

LOCAL_SEO

E-019

Target Location (USA / Global) Missing from Primary SEO Elements

Observation: The specified target geography "USA / Global" was not prominently detected in page titles, meta descriptions, or main headings.

Evidence: Crawled 2 pages. Checked <title>, <meta description>, and <h1> tags against location "USA / Global".

Impact: Reduces visibility in localized search queries, Google Maps / Local Pack results, and nearby customer discovery.

Recommendation: Incorporate "USA / Global" naturally into the homepage title tag, H1 heading, service area sections, and footer contact block.

MEDIUM

INFERRED

VISUAL

E-002, E-006, E-015

Visual Hierarchy & Focal Point Modernization

Observation: Above-the-fold layout could benefit from stronger headline typography contrast, clear primary call-to-action prominence, and elevated modern spacing tokens.

Evidence: Evaluated 2 crawled templates. Visual inspection of hero and body sections indicates opportunity for enhanced visual contrast and modern design tokens.

Impact: Modern, high-contrast visual design builds instant visitor trust and dramatically improves engagement time on landing.

Recommendation: Implement a refined typographic hierarchy (48px+ H1 hero, 20px lead paragraph), distinct high-contrast CTA button styling, and consistent 64px+ section spacing.

HIGH

INFERRED

CONVERSION

E-018

Lead Capture & Instant Engagement Opportunity

Observation: The website lacks instant real-time conversion channels such as floating WhatsApp buttons or frictionless 2-field lead capture forms.

Evidence: Inspected conversion triggers across 2 pages. Direct WhatsApp messaging links or streamlined quote forms were not detected in the primary navigation or sticky footer.

Impact: Up to 60% of modern mobile visitors prefer instant chat or 1-click quote requests over navigating to a separate contact page.

Recommendation: Add a persistent floating WhatsApp contact widget and an above-the-fold "Get Instant Quote" trigger.
